FOREWORD

The Government of Kenya is committed to ensuring that policy objectives for education, training and research meet the aspirations of the Kenya Constitution 2010 and the Kenya Vision 2030. In relation to this, the Ministry of Education (MoE) seeks to ensure that policy documents developed are consistent with the international education commitments and other conventions to which Kenya is a signatory. The Competency Based Curriculum (CBC) calls for transformative and reflective teachers who shall take advantage of existing opportunities to implement curricula in different learning contexts. This, in turn, has implications for Pre-service Teacher Education (PTE).

Therefore, the Ministry of Education will upgrade the level of PTE for Primary School teachers to the Diploma level to enable the student teachers achieve higher levels of professional and practical competencies required to implement the reformed curriculum. The MoE is satisfied that the Diploma in Primary Teacher Education (DPTE) programme has been developed with insights from research findings, particularly the Needs Analysis for Teacher Education, international benchmarking and sufficient stakeholder engagement. These insights have resulted in the conceptualization and design of a PTE programme which aims to *produce a competent teacher committed to nurturing every learner's potential for sustainable development*.

The MoE is also confident that the curriculum designs have been developed through a consultative process that involved panelists, course panels and the Academic Committee which is presided over by the MoE. It is important to note that the curriculum designs provide a link between the National Goals of Education, the General Learning Outcomes for DPTE and the Specific Learning Outcomes for each learning area. There are also a variety of suggested learning experiences, modes of assessment and resources amongst other critical components. Implementers of the DPTE programmes shall need to ensure that this link is upheld consistently to fulfil the vision of producing a professional, reflective and ethical teacher.

It is my expectation that the DPTE curriculum designs will serve as valuable reference materials to teacher educators and guide consistent implementation of PTE in all institutions in Kenya.

PROF. GEORGE A. O. MAGOHA, CBS
CABINET SECRETARY
MINISTRY OF EDUCATION

PREFACE

The Sessional Paper No. I of 2019, *Towards Realizing Quality, Relevant and Inclusive Education and Training for Sustainable Development,* is the policy framework for the Education Sector which seeks to actualise the tenets of the Kenya Vision 2030. The social strategy for achieving Vision 2030 reiterates the need to invest in the People of Kenya, which necessitates modernisation of teacher training as a key component. The Ministry of Education (MoE) recognises that ensuring a vital human resource for quality teaching is the foundation of any successful education system. The Sessional Paper explains the shift from a Content - Focused Curriculum for Basic Education to a Competency Based Curriculum (CBC). This has necessitated the change in the Teacher Education Curriculum to be in tandem with the aspirations of the nation.

To enable teachers to effectively their expected leading roles in curriculum implementation, there is a need for adequate preparation during pre-service training in professionalism, content, pedagogy and desirable values. Consequently, the curriculum designs for the Diploma in Primary Teacher Education (DPTE) have provided courses that will enable the development of competencies necessary to realise the vision and mission of the CBC as captured in the Basic Education Curriculum Framework (KICD, 2017).

In these designs, Micro Teaching and Practicum have been given prominence in order to enhance experiential learning with support from experienced teachers as mentors. Therefore, MoE is convinced that DPTE curriculum designs shall facilitate production of competent teachers for Kenya, the East African region and the rest of the world.

It is my hope that the Teacher Training Colleges will adhere to the guidelines in the designs to ensure efficiency and consistency in Pre-service Teacher Education in Kenya.

DR. JULIUS O. JWAN, MBS
PRINCIPAL SECRETARY
STATE DEPARTMENT OF EARLY LEARNING AND BASIC EDUCATION

ACKNOWLEDGEMENT

The Kenya Institute of Curriculum Development (KICD) Act Number 4 of 2013 (Revised 2018) mandates the Institute to develop curricula and curriculum support materials for basic and tertiary education and training, below the university. The curriculum development process for any level involves thorough research, international benchmarking and robust stakeholder engagement.

Through this systematic and consultative process, the KICD conceptualised the Competency Based Curriculum (CBC) as captured in the Basic Education Curriculum Framework (BECF), that responds to the demands of the 21st Century and the aspirations captured in the Kenya Constitution 2010, and the Kenya Vision 2030, East African Commission Protocol and the United Nations Sustainable Development Goals. Consistent with the CBC, the KICD has developed a Teacher Education Curriculum Framework (TECF) which emphasises the need to adopt a Competency Based Teacher Education (CBTE). Accordingly, the development of the Curriculum Designs for the Diploma in Primary Teacher Education (DPTE) takes cognisance of the tenets of CBTE, key among them being the need to ensure student teachers get opportunities to comprehensively engage with the content for their target learners, the interactive pedagogies and socially acceptable values that would nurture every learner's potential. Therefore, a key feature of the curriculum design for each course is the integration of content with pedagogy and provisions for experiential learning through sufficient time for Micro – Teaching and the Practicum.

I wish to acknowledge the KICD curriculum developers and other staff, all teachers and educators who took part as panelists, the Semi-Autonomous Government Agencies (SAGAs) and representatives of various stakeholders for their various roles in the development of the Teacher Education curriculum designs.

I give special thanks to the Cabinet Secretary – Ministry of Education, the Principal Secretary – State Department of Early Learning and Basic Education, the Secretary Teachers Service Commission (TSC) and the Chief Executive Officer of the Kenya National Examinations Council (KNEC) for their support in the process.

Finally, I am very grateful to the KICD Council for very consistent guidance in the process. I assure all student teachers, teacher educators and other stakeholders that these Curriculum Designs will effectively guide the implementation of the DPTE and lead to the graduation of competent teachers who shall successfully implement the CBC in Kenya and internationally.

INTRODUCTION

The development of the curriculum for Diploma in Primary Teacher Education (DPTE) is a critical milestone in the implementation of Competency Based Curriculum (CBC) in Kenya. The curriculum designs herein have been developed to prepare the student teacher to be able to effectively guide the learners at the Primary level of Basic Education.

It is envisaged that the teacher educator will guide the teacher trainee appropriately to embrace the shift from the Objective-Based to the Competency Based Curriculum which is hinged on use of learner-centred methodologies for realisation of the expected outcomes. In addition, the emphasis on formative assessment to facilitate learning should be underscored as the basis for determining learner aptitude and performance. Other key aspects that have been introduced include structured micro-teaching, a longer period for the practicum and the introduction of specific Professional Courses that ensure congruence with the CBC vision, mission, pillars and guiding principles as enshrined in the *Basic Education Curriculum Framework* (KICD, 2017).

The DPTE seeks to develop the teacher to act as a facilitator in the learning process taking into consideration the different abilities and learning styles of individual target learners. The curriculum has been designed with emphasis on experiential and reflective learning to develop appropriate pedagogical content knowledge; hence the emphasis on integrated content and pedagogy for the student teachers while at college. This is to ensure that the teacher trainee is given adequate time to practice how to facilitate learning of the different strands prescribed in the curriculum designs.

The Curriculum Designs for the Diploma in Primary Teacher Education (DPTE) are packaged according to courses of training as follows:

Professional Learning areas

1. Child Development and Psychology
2. Curriculum Studies
3. Educational Resources
4. ICT Integration in Education
5. Educational Assessment
6. Communication and Research Skills
7. Inclusive Education
8. Educational Leadership and Management
9. Sociological and Philosophical Foundations of Education
10. Historical and Comparative Foundations of Education
11. Micro Teaching
12. Practicum

Integrated Content and Pedagogy Learning areas

1. English
2. Kiswahili
3. Mathematics
4. Science and Technology
5. Agriculture
6. Home Science
7. Religious Education: CRE/IRE/HRE
8. Social Studies
9. Physical and Health Education
10. Art and Craft
11. Music
12. Indigenous Language
13. Foreign Languages: French/ Arabic/ German/ Mandarin (Chinese)/ KSL

REGULATIONS FOR THE DIPLOMA IN PRIMARY TEACHER EDUCATION (DPTE)

ENTRY REQUIREMENTS

The entry requirements for the Diploma in Primary Teacher Education (DPTE) shall be **C Plain** Mean Grade in the Kenya Certificate of Secondary Education examination (KCSE) or its equivalent (as equated by the Kenya National Examinations Council (KNEC). The Special Needs Candidates (SNE) could be admitted with **C Minus (-)** Grade in KCSE or equivalent for the respective Diplomas. This refers to Candidates who have Special Needs

DURATION OF TRAINING

The duration for the Diploma in Primary Teacher Education (DPTE) shall be **three years**.

SUBJECTS OFFERED

The trainee undertaking the Diploma in Primary Teacher Education (DPTE) shall take **ALL** courses specified in the DPTE curriculum; which includes Professional Courses and learning areas (subjects) in Primary School Curriculum.

MICRO-TEACHING AND PRACTICUM

Micro Teaching shall be undertaken as a course and shall be a pre-requisite for the Practicum; hence a course design has been developed for it. There shall be two (2) school term practicum sessions for which guidelines shall be developed.

AWARD OF DIPLOMA

To be awarded the Diploma in Primary Teacher Education, the candidate must achieve the following:

i) Complete the required hours for coursework and pass the stipulated assessment as directed by the Kenya National Examinations Council (KNEC).
ii) Complete the required hours for the Practicum and pass the stipulated assessment as directed by the Kenya National Examinations Council (KNEC).

Note: If the student fails to meet the requirements for award of the Diploma in Primary Teacher Education he/she will be allowed to repeat the specific component or learning area failed

GRADING

The Diploma in Primary Teacher Education (DPTE) shall be graded as stipulated by the Kenya National Examinations Council (KNEC).

NATIONAL GOALS OF EDUCATION

Education in Kenya should:

i) **Foster nationalism and patriotism and promote national unity.**

Kenya's people belong to different communities, races and religions, but these differences need not divide them. They must be able to live and interact as Kenyans. It is a paramount duty of education to help young people acquire this sense of nationhood by removing conflicts and promoting positive attitudes of mutual respect which enable them to live together in harmony and foster patriotism in order to make a positive contribution to the life of the nation.

ii) **Promote the social, economic, technological and industrial needs for national development.**

Education should prepare the youth of the country to play an effective and productive role in the life of the nation.

a) **Social Needs**

Education in Kenya must prepare children for changes in attitudes and relationships which are necessary for the smooth progress of a rapidly developing modern economy. There is bound to be a silent social revolution following in the wake of rapid modernization. Education should assist our youth to adapt to this change.

b) **Economic Needs**

Education in Kenya should produce citizens with the skills, knowledge, expertise and personal qualities that are required to support a growing economy. Kenya is building up a modern and independent economy which is in need of an adequate and relevant domestic workforce.

c) **Technological and Industrial Needs**

Education in Kenya should provide learners with the necessary skills and attitudes for industrial development. Kenya recognizes the rapid industrial and technological changes taking place, especially in the developed world. We can only be part of this development if our education system is deliberately focused on the knowledge, skills and attitudes that will prepare our young people for these changing global trends.

iii) **Promote individual development and self-fulfilment**

Education should provide opportunities for the fullest development of individual talents and personality. It should help children to develop their potential interests and abilities. A vital aspect of individual development is the building of character.

iv) **Promote sound moral and religious values.**

Education should provide for the development of knowledge, skills and attitudes that will enhance the acquisition of sound moral values and help children to grow up into self-disciplined, self-reliant and integrated citizens.

This document is available on studocu

Downloaded by Patrick Ngobiro (pngobiro@gmail.com)

v) **Promote social equality and responsibility.**
Education should promote social equality and foster a sense of social responsibility within an education system which provides equal educational opportunities for all. It should give all children varied and challenging opportunities for collective activities and corporate social service irrespective of gender, ability or geographical environment.

vi) **Promote respect for and development of Kenya's rich and varied cultures.**
Education should instil in the youth of Kenya an understanding of past and present cultures and their valid place in contemporary society. Children should be able to blend the best of traditional values with the changing requirements that must follow rapid development in order to build a stable and modern society.

vii) **Promote international consciousness and foster positive attitudes towards other nations.**
Kenya is part of the international community. It is part of the complicated and interdependent network of peoples and nations. Education should therefore lead the youth of the country to accept membership of this international community with all the obligations and responsibilities, rights and benefits that this membership entails.

viii. Promote positive attitudes towards good health and environmental protection.
Education should inculcate in young people the value of good health in order for them to avoid indulging in activities that will lead to physical or mental ill health. It should foster positive attitudes towards environmental development and conservation. It should lead the youth of Kenya to appreciate the need for a healthy environment.

LEVEL LEARNING OUTCOMES FOR DIPLOMA IN PRIMARY TEACHER EDUCATION (DPTE)

By the end of the course the teacher trainee should be able to:

1. Model appropriate behaviour and values for primary school learners to emulate for development of good citizenship
2. Communicate and collaborate effectively with learners, peers, parents and the community to create a conducive learning environment.
3. Use appropriate pedagogical approaches to facilitate learning for primary school learners in and out of the classroom
4. Apply inclusive practices to support all primary school learners including those with disabilities and special educational needs
5. Employ ICT skills in the learning process to enhance digital literacy
6. Employ appropriate assessment approaches to promote effective learning
7. Identify and nurture learner's potential and talents for appropriate placement and transition into lower secondary education.
8. Develop environmental conservation skills in primary school learners to promote education for sustainable development
9. Create innovative and effective solutions to challenges in the learning process.
10. Integrate pertinent and contemporary issues in learning to enable learners to cope with daily challenges.

Downloaded by Patrick Ngobiro (pngobiro@gmail.com)

ESSENCE STATEMENT

The Educational Assessment course is aimed at equipping the teacher trainee with the prerequisite knowledge and skills in assessing the learner's acquisition of the learning outcomes, the desired core competencies, values and attitudes. The Basic Education Curriculum Framework (BECF) describes assessment as a process of determining the capability of a learner to apply a set of related knowledge, skills, values and attitudes to successfully perform critical work functions or tasks in a specified setting. Assessment is based on a collection of pieces of evidence that demonstrate the learner's acquisition of the intended learning outcomes, performance or behaviour change according to a specific assessment standard. Teacher trainees should be trained in effective methods of collecting, recording, compiling and interpreting evidence of the learner's progress. Further, the trainee should be well grounded in the principles of assessment such as validity, reliability, fairness, accessibility and flexibility as outlined in the Competency Based Assessment Framework (CBAF).

GENERAL LEARNING OUTCOMES

By the end of the course, the teacher trainee should be able to:

1. Outline the importance of assessment in the learning process.
2. Analyse various methods of assessment used in the learning process.
3. Develop appropriate tools for assessing learner's knowledge, skills and competencies, values and attitudes in the different subjects and learning areas.
4. Apply effective assessment practices in the learning process.
5. Apply Information Communication Technology (ICT) in assessment process.
6. Integrate values, PCIs and competencies in the assessment process.
7. Appreciate the use of assessment in the learning process.

learning process.

- **Respect** – as teacher trainees accommodate each other's opinion when discussing the features of different assessment tools and share in the plenary.

Suggested Formative Assessment Rubric

Level Indicator	Exceeds Expectations	Meets Expectations	Approaches Expectations	Below Expectations
Identifying assessment tools used in assessing the achievement of the learning outcomes.	Consistently and correctly identifies assessment tools used in assessing the achievement of the learning outcomes.	Correctly identifies assessment tools used in assessing the achievement of the learning outcomes.	Attempts to identify some of the assessment tools used in assessing the achievement of the learning outcomes.	Has difficulty in identifying the assessment tools used in assessing the achievement of the learning outcomes.
Describing features of assessment tools used in different learning situations.	Consistently and accurately describes features of assessment tools used in different learning situations.	Accurately describes the features of assessment tools used in different learning situations.	Attempts to describe features of assessment tools used in different learning situations.	Has difficulty in describing features of assessment tools used in different learning situations.
Adapting assessment tools to suite assessment of different learning areas.	Creatively, innovatively and appropriately adapts assessment tools to suite assessment of different learning areas.	Correctly and appropriately adapts assessment tools to suite assessment of different learning areas.	Attempts to adapt assessment tools to suite assessment of different learning areas.	Has difficulty in adapting assessment tools to suite assessment of different learning areas.
Developing assessment tools for different learning situations.	Innovatively develops assessment tools for different learning situations.	Develops assessment tools for different learning situations.	Attempts to develop assessment tools for different learning situations.	Has difficulty in developing assessment tools for different learning situations.
Evaluating the effectiveness of assessment tools used in the learning process.	Critically evaluates the effectiveness of assessment tools used in the learning process.	Evaluates the effectiveness of assessment tools used in the learning process.	Attempts to evaluate the effectiveness of assessment tools used in the learning process.	Has difficulty in evaluating the effectiveness of assessment tools used in the learning process.

		effective feedback in the assessment process c) examine formal and informal methods of giving feedback in different learning situations d) distinguish between formative and summative feedback in the learning process e) evaluate the benefits of feedback in the assessment process f) appreciate the use of feedback in monitoring the learning progress.	assessment feedback and shares with peers ● discusses formal and informal feedback used in the learning process ● discusses different ways of giving formative and summative feedback ● explores the benefits of feedback in assessment ● develops simulation presentations on the positive and negative feedback reports and have their peers critique on the impact of such feedback in learning.	

Core competencies to be developed

- **Creativity** – as teacher trainees develop simulation presentations on positive and negative feedback reports.

Values

- **Responsibility** – as teacher trainees develop simulation presentations on the positive and negative feedback reports in groups and have their peers give a critique on the impact of such feedback in learning.

Analysing the qualities of effective feedback in the assessment process.	Comprehensively and correctly analyses the qualities of effective feedback in the assessment process.	Correctly analyses the qualities of effective feedback in the assessment process.	Attempts to analyse the qualities of effective feedback in the assessment process.	Has difficulty in analysing the qualities of effective feedback in the assessment process.
Examining formal and informal methods of giving feedback in the learning process.	Comprehensively examines formal and informal methods of giving feedback in the learning process.	Examines formal and informal methods of giving feedback in the learning process.	Attempts to examine formal and informal methods of giving feedback in the learning process.	Has difficulty in examining formal and informal methods of giving feedback in the learning process.
Distinguishing between formative and summative feedback.	Comprehensively and correctly distinguishes between formative and summative feedback.	Correctly distinguishes between formative and summative feedback.	Attempts to distinguish between formative and summative feedback.	Has difficulty in distinguishing between formative and summative feedback.
Evaluating the benefits of feedback in the assessment process.	Comprehensively evaluates the benefits of feedback in the assessment process.	Evaluates the benefits of feedback in the assessment process.	Attempts to evaluate the benefits of feedback in the assessment process.	Has difficulty in evaluating the benefits of feedback in the assessment process.

		qualitative and quantitative reporting in the learning process.		

Core competencies to be developed

- **Critical Thinking and Problem Solving** – as teacher trainees determine assessments tasks that will elicit qualitative and quantitative reporting.

Values

- **Responsibility** – as teacher trainees create quantitative report from the assessment scores and records in groups, and present in plenary for critique and improvement.

Suggested Formative Assessment Rubric				
Level **Indicator**	**Exceeds Expectations**	**Meets Expectations**	**Approaches Expectations**	**Below Expectations**
Explaining the meaning of qualitative reporting and quantitative reporting.	Comprehensively and correctly explains the meaning of qualitative reporting and quantitative reporting.	Correctly explains the meaning of qualitative reporting and quantitative reporting.	Attempts to explain the meaning of qualitative reporting and quantitative reporting.	Has difficulty in explaining the meaning of qualitative reporting and quantitative reporting.
Determining assessments tasks that will elicit qualitative reporting.	Accurately and correctly determines assessments tasks that will elicit qualitative reporting.	Correctly determines assessments tasks that will elicit qualitative reporting.	Attempts to determine assessments tasks that will elicit qualitative reporting.	Has difficulty in determining assessments tasks that will elicit qualitative reporting.
Determining assessments tasks that will elicit quantitative reporting.	Accurately and correctly determines assessments tasks that will elicit quantitative reporting.	Correctly determines assessments tasks that will elicit quantitative reporting.	Attempts to determine assessments tasks that will elicit quantitative reporting.	Has difficulty in determining assessments tasks that will elicit quantitative reporting.

Strand	Sub Strand	Specific Learning Outcomes	Suggested Learning Experiences	Key Inquiry Questions
5.0 Reporting on Assessment	**5.3 Reporting Tools** **(1 hour)**	By the end of the sub strand, the teacher trainee should be able to: a) identify reporting tools used in the assessment process b) apply appropriate reporting tools in different learning situations c) use different reporting tools to inform the stakeholders on the learning progress d) appreciate the use of reporting tools in the learning process.	The teacher trainee: • uses available resources to search for reporting tools used in the assessment process and shares their findings • develops appropriate reporting tools for different stakeholders and presents to the peers for critique and feedback • in groups role plays on use of reporting tools to inform the stakeholders on the learning progress.	What is the importance of reporting assessment results to stakeholders?

Core competencies to be developed

- **Communication and Collaboration** – as teacher trainees use reporting tools to inform the stakeholders on the learning progress.

Values

- **Responsibilit**y – as teacher trainees develop appropriate reporting tools for different learning areas.

Suggested Formative Assessment Rubric

Level Indicator	Exceeds Expectations	Meets Expectations	Approaches Expectations	Below Expectations
Identifying reporting tools used in the assessment process.	Comprehensively and correctly identifies reporting tools used in the assessment process.	Correctly identifies reporting tools used in the assessment process.	Attempts to identify reporting tools used in the assessment process.	Has difficulty in identifying reporting tools used in the assessment process.
