TASK

You are required to do the following:

a) Write a letter using the mail merge facility to Grade 5 teachers through the head teacher in a neighboring primary school requesting them to grant you access to raw marks in all subjects for a maximum of 45 learners. (4 marks)

b) Tabulate the raw marks for the learners in a worksheet. (2 marks)

c) Use formulae or function to perform the following:

   i) Compute total marks for each learner. (2 marks)
   ii) Compute the average mark for each learner. (2 marks)
   iii) Rank the learners based on the average marks. (1 marks)

d) Insert a 'Comment' column in the worksheet, use the IF function to comment on each learner's progress as:
   "Meeting Expectations" if average mark is greater than 50%.
   "Below Expectations" if average mark is less than 40%. (2 marks)

e) Sort the data in the worksheet in descending order based on the learner name. (1marks)

f) Design a sample assessment report for a learner in a worksheet. (1 marks)

g) Create a 10 slide PowerPoint presentation on the challenges and possible solutions to the challenges of ICT integration in teaching and learning process. (4 marks)

h) Submit your work to your trainer for assessment. (1 marks)
