SECTION 1

MULTIPLE CHOICE QUESTIONS (30 MARKS)

1. In database design, the stage where one gathers and lists all necessary fields for the database project is
   a) Data depilation
   b) Data refinement
   c) Establishing relationship
   d) None of the above
2. Which of the following fields in database has a width of 8 bytes?
   a) Memo
   b) Name
   c) Number
   d) Data/time
3. A _____name must be unique within a database
   a) Record
   b) Character
   c) Table
   d) Character
4. The key that uniquely identifies each record in database is called
   a) Field name
   b) Primary key
   c) Candidate key
   d) Secondary key
5. One to many relationships between student and subject tables means
   a) One student can have many subjects
   b) One subject can have more students
   c) Many subjects can have many students
   d) Many students can have many subjects
6. A part of a database that stores only one type of data is _____
   a) Record
   b) Field
   c) Query
   d) Report
7. Which of the following may not be included in a database?
   a) Data presented in a table in MS Word document
   b) Data in MS Excel spreadsheet
   c) A PowerPoint presentation
   d) A telephone directory

Downloaded by Patrick Ngobiro (pngobiro@gmail.com)

8. A collection of related records in a database is known as
   a) File
   b) Record
   c) Relationship
   d) Table
9. Each record is constituted by a number of individual data items called
   a) Rations
   b) Data types
   c) Fields
   d) Tables
10. The complete information about an activity in a database is called _____
   a) Data
   b) Record
   c) Field
   d) Information
11. What field type will you select if you need to enter long text in that field
   a) Currency
   b) Text
   c) Memo
   d) Hyperlink
12. Which of the following is not an MS Access database object?
   a) Modules
   b) Worksheet
   c) Table
   d) Form
13. In which method do we need not to specify the field type and size when creating a new table?
   a) Using wizard
   b) Design new
   c) Create table by entering data
   d) All the above
14. The option that creates a drop-down list of values is
   a) Lookup wizard
   b) Hyperlink
   c) Memo
   d) Ole object
15. The maximum length of a text field is
   a) 75
   b) 100
   c) 234
   d) 255

16. When we create or open the MS Access Database file, we get to
    a) Design view window
    b) Database window
    c) Switchboard
    d) Query window
17. Columns in MS Access table are also called _____
    a) Records
    b) Rows
    c) Pillars
    d) Fields
18. Which of the following describes a FORM in MS Access?
    a) Is an input screen for viewing centering data
    b) Is used to make print out from Access tables
    c) Is optional once we can just report
    d) Is used for storing special data
19. How can you create a query in MS Access?
    a) Use query wizard
    b) Drag and drop fields
    c) Type the SQL
    d) All the above
20. The size of a field with data type as number cannot be
    a) 2
    b) 8
    c) 4
    d) 16
21. You can edit a relationship already established between two tables by
    a) Right click of the relationship line and then choose edit relationship
    b) Double click on the relationship line
    c) Both A and B
    d) None of the above
22. Which one of the following is not a field type in MS Access?
    a) Ole Object
    b) Memo
    c) Look up wizard
    d) Hyperlink
23. Which of the following relationship cannot be applied in MS Access database?
    a) One to many
    b) Many to many
    c) One to many
    d) Two by two table relationship

Downloaded by Patrick Ngobiro (pngobiro@gmail.com)

24. Which field type stores photos in MS Access
   a) Memo
   b) Hyperlink
   c) Picture
   d) Ole object
25. Which data type should we use for storing a few paragraphs of a report?
   a) Para
   b) Memo
   c) Text
   d) Desc
26. In database, data is held in which object?
   a) Tables
   b) Forms
   c) Reports
   d) Queries
27. Which of the following shows the final database results in a more presentable way?
   a) Forms
   b) Queries
   c) Reports
   d) Tables
28. How many characters can you type in maximum while writing the field name?
   a) Any number
   b) 68
   c) 60
   d) 64
29. To sort records in a table,
   a) Open table, click sort button on tool bar, choose field to sort, then click ok
   b) Open table, click field to sort, then click sort button on toolbar
   c) Click the field heading and sort in ascending or descending order
   d) All the above
30. Commands gather data from database are stored in
   a) Forms
   b) Queries
   c) Reports
   d) Tables
