KENYA MEDICAL TRAINING COLLEGE
FACULTY OF MEDICAL EDUCATION AND INFORMATION TECHNOLOGY
DEPARTMENT OF HEALTH RECORDS AND INFORMATION

FINAL QUALIFYING EXAMINATION
FOR
DIPLOMA IN HEALTH RECORDS AND INFORMATION

PAPER: MONITORING AND EVALUATIION

DATE: 29TH JANUARY, 2025	**TIME: 3 HOURS (9:00AM – 12:00 NOON)**

INSTRUCTIONS

1. This paper consists of:
   - Section 1 (40 Multiple Choice Questions)
   - Section 2 (8 Short Answer Questions)
   - Section 3 (1 Long Answer Question)
2. Attempt **ALL** Questions
3. ALL Multiple choice questions **MUST** be answered in **CAPITAL LETTERS**
4. Write your **EXAMINATION NUMBER** on all the answer sheets provided and on the question paper.
5. No other writing should be done on the question paper except your Examination Number.
6. Ensure that all examination answer scripts are handed in at the end of the examination
7. Ensure you sign the examination register provided

EXAMINATION NUMBER .....

SECTION 1: MULTIPLE CHOICE QUESTIONS (40 MARKS)

1. What is the primary purpose of monitoring and evaluation?
   A. For compliance with organizational policies
   B. Allocate resources for different projects
   C. For collecting data for reporting
   D. To assess the impact and effectiveness of programs
2. Which of the following statements best describes the difference between monitoring and evaluation.
   A. Monitoring collects data while evaluation analyses data and draws conclusions.
   B. Monitoring is done by external evaluators and evaluation is conducted by program staff.
   C. Monitoring is an ongoing process while evaluation is a one-time activity.
   D. Monitoring focuses on inputs while evaluation focuses on outputs.
3. The purpose of process evaluation in M&E is to
   A. Assess the long term impact of a program.
   B. To monitor program implementation and activities
   C. To evaluate the cost effectiveness of program interventions.
   D. To collect data on the satisfaction of program beneficiaries.
4. Monitoring and evaluation as a systemic process is used to
   A. Allocate resources effectively/efficiently.
   B. Collect data for program implementation.
   C. To develop pogram objectives and goals.
   D. To assess program performance and impact.
5. Which of the following is a qualitative data collection method?
   A. Interviews
   B. Observations
   C. Surveys
   D. Experiments
6. Which of the following is an example of a qualitative data analysis method?
   A. Content analysis
   B. Observations
   C. Surveys
   D. Experiments
7. The purpose of a data quality assessment in M&E is to
   A. Estimation of the cost-effective program activities
   B. To ensure accuracy, reliability and completeness of data
   C. Identification of potential risks and challenges of program implementation
   D. To determine the target population for the program.

Downloaded by Patrick Ngobiro (pngobiro@gmail.com)

8. What is the purpose of logic model in program evaluation?
   A. Analyse the social and economic context of the program
   B. Allocation of financial resources to program activities
   C. Summarize the key program activities and outputs
   D. To identify the target population for the program
9. What governs Financial accountancy in monitoring and evaluation?
   A. International standards
   B. Local standards only
   C. Company's internal top management only
   D. Local as well and international accounting standards
10. Specialization branch of accounting that keeps tracking of institutional financial transactions is known as?
   A. Financial accounting
   B. Cost accounting
   C. Management accounting
   D. Corporate accounting
11. A list of headings and appendices of the monitoring and evaluation report is referred to as?
   A. Abbreviations
   B. Acknowledgement
   C. Summary
   D. Table of contents
12. Which of the following is an example of a performance indicator?
   A. Number of beneficiaries reached
   B. Percentage of funds allocated yearly
   C. Number of program staff trained
   D. Level of participants' satisfaction of program activities
13. The purpose of conducting a baseline assessment in an monitoring and evaluation system is:
   A. To identify external factors and challenges
   B. For establishment of starting point and measure changes
   C. To collect data for reporting purpose
   D. Assessment of the effectiveness of project activities
14. What is the purpose of feedback mechanisms in monitoring and evaluation?
   A. To communicate evaluation findings to stakeholders
   B. To collect data from project beneficiaries
   C. To ensure accountability and transparency
   D. To facilitate continuous learning and improvement
15. Which one among the following is a core component of project management?
   A. Defining the reason why the project is necessary.
   B. Leading and motivating the project delivery team.
   C. Monitoring progress against plan.
   D. Closing the project in an uncontrolled fashion when appropriate.

Downloaded by Patrick Ngobiro (pngobiro@gmail.com)

16. At what stage of a program should monitoring take place?
    A. At the beginning of the program.
    B. At the mid-point of the program.
    C. At the end of the program.
    D. Throughout the life of the program.
17. Why do we need standard indicators?
    A. Helps to direct resources to regions with greater needs.
    B. Ensures comparability of information across countries over time.
    C. Provides the national programme with valuable measures to address regional or local inconsistencies.
    D. The use of indicators helps in reduction of funding and resources.
18. Why should stakeholders participate in planning and implementation of project monitoring and evaluation activities?
    A. They make decisions by not using project monitoring and evaluation data and findings.
    B. Reviewing and comment on evaluation reports.
    C. Promoting understanding or priority issues to stakeholders.
    D. Playing key role in disseminating and reporting evaluation results.
19. Monitoring and evaluation are tools for effective programme implementation that enables both planners and decision makers to draw lessons for future actions. Both aim at the following:
    A. Tracking the progress of the project during its implementation.
    B. Determining systematic and objection.
    C. Efficiency: cost/benefit ratio - could it have been accomplished at a lower cost?
    D. Significance: Did it make substantial contribution to the environment?
20. Which type of research is expressed in words and used to explain and understand concepts, thoughts and experience?
    A. Qualitative research
    B. Quantitative research
    C. Analytical research
    D. Descriptive research
21. An analytical process that stands for project or programme planning, monitoring and evaluation is known as;
    A. Conceptual framework
    B.Evaluation
    C.M&E
    D. logical framework approach.
22. A coherent organization of the information required for an organization to execute project successfully is known as?
    A. Project management
    B. Information system
    C. System software
    D. Project management information system (PMIS)

Downloaded by Patrick Ngobiro (pngobiro@gmail.com)

23. Continuous tracking and reporting of priority information about a program or a project and intended outputs is:
    A. Routine
    B. Monitoring
    C. Project management
    D. Evaluation
24. The following is an element of a monitoring and evaluating system
    A. Statement frameworks
    B. Result frameworks and log-frames
    C. The monitoring and evaluation plan.
    D. The management information system.
25. Criteria for program and activities prioritization should be guided by the following
    A. Linkage to Government flagship projects and interventions
    B. Linkage of the program with other programs
    C. Non-continuity of the already ongoing projects and programs.
    D. Cost-effectiveness and sustainability of the program.
26. There are various reasons behind writing a report, they include
    A. To communicate a research process in a complicated manner
    B. To give a logical structure to the methods, results and findings of research.
    C. To inform the target audience of the findings and viable recommendations of the research.
    D. To provide a document that would be easy to read and navigate for the readers.
27. Which of the following characteristics should Project Objectives have?
    A. Un-quantifiable and not need to be measured.
    B. Specific, simple, clear and concise statements that describe the intended results to be achieved.
    C. High level statements that provide the overall context for M&E.
    D. Long term statements that state the ultimate expected impact of a program.
28. The following are steps of a decision making process in writing a report. Which one comes first?
    A. Identifying a problem
    B. Analysing a problem
    C. Developing decision criteria
    D. Allocating weight to the criteria
29. Data which can be quantified and manipulated statistically is known as?
    A. Discreet data
    B. Continuous data
    C. Qualitative data
    D. Quantitative data

Downloaded by Patrick Ngobiro (pngobiro@gmail.com)

30. A variable that is normally used as a benchmark for measuring project output is
    A. Plan
    B. Variable
    C. Indicator
    D. Indices
31. Planning for monitoring and evaluation involves looking at a number of different processes involves?
    A. Identifying the vision, goals or objectives to be achieved.
    B. Formulating the strategies needed to achieve the vision and goals.
    C. Determining and allocating the resources required to achieve the vision and goals.
    D. Outlining the impact of the project arrangements.
32. Which component of monitoring and evaluation involves summarizing and communicating findings to key stakeholders?
    A. Data analysis
    B. Reporting
    C. Feedback collection
    D. Performance measurement
33. Which of the following statement best describes the main advantage of using qualitative data in monitoring and evaluation?
    A. It provides objective and numerical results.
    B. It allows for generalization to a larger population.
    C. It captures rich, detailed information and context.
    D. It is easily measurable and quantifiable.
34. When monitoring and evaluating a project or a program, the type of data that is characterized by descriptive information, opinions, and experiences is known as?
    A. Qualitative data
    B. Quantitative data
    C. Secondary data
    D. Primary data
35. In monitoring and evaluation, the purpose of data analysis is?
    A. To identify project stakeholders
    B. To assess project sustainability
    C. To determine project scope
    D. To draw conclusions and make recommendations
36. What is the role of data collection in monitoring and evaluation?
    A. To establish project objectives
    B. To identify project risks
    C. To measure project progress
    D. To allocate project resources

Downloaded by Patrick Ngobiro (pngobiro@gmail.com)

37. What is the purpose of setting indicators in monitoring and evaluation?
    A. To measure project inputs
    B. To track project expenses
    C. To assess project outcomes
    D. To determine project timelines
38. When evaluating a project in healthcare system, which of the following is an example of an evaluation method?
    A. Surveys and questionnaires
    B. Weekly progress reports
    C. Project budget analysis
    D. Team meetings and discussions
39. Which of the following is a common challenge in monitoring and evaluation?
    A. Lack of available technology for data collection
    B. Limited budget for monitoring and evaluation activities
    C. Overemphasis on qualitative data over quantitative data
    D. Lack of stakeholder involvement in monitoring and evaluation
40. Which of the following is a key component of an effective monitoring and evaluation system?
    A. A comprehensive project timeline
    B. Regular reporting and feedback mechanisms
    C. Strict project budget control
    D. An extensive stakeholder list

SECTION 2: SHORT ANSWER QUESTIONS (40 MARKS)

41. Explain five (5) key elements of project management. **(5 marks)**
42. Outline 5 five goals of monitoring in any organization. **(5 marks)**
43. Explain the two (2) types of qualitative data in monitoring and evaluation. **(5 marks)**
44. Outline five (5) data collection tools in monitoring and evaluations **(5 marks)**
45. Show the differences between quantitative and qualitative data. **(5 marks)**
46. Briefly explain the following terms as used in financial management accounting. **(10 marks)**
    A. Accounting
    B. Financial Accounting
    C. Financial Statement
    D. Fund flow statement
    E. Budget
47. Explain the steps of report writing in monitoring and evaluation. **(5 marks)**

Downloaded by Patrick Ngobiro (pngobiro@gmail.com)

SECTION 3: LONG ANSWER QUESTION (20 MARKS)

48 As a health Records and Information Officer (Manager) in a health facility,

a. Describe how you can develop a monitoring and evaluation plan. **(10 marks)**

b. Illustrate and discuss how you will use a logic model framework to monitor and evaluate the plan developed above. **(10 marks)**
